

KENTUCKY COMMUNITY AND TECHNICAL COLLEGE SYSTEM

REQUEST FOR PROPOSAL ADDENDUM

RFP NO.: RFP-0180
ADDENDUM NO.: 1
RFP ISSUE DATE: February 27, 2018
ADDENDUM DATE: March 13, 2018
OPENING DATE: March 21, 2018
TITLE: Sponsorship for Welding Technology

I. The following information is provided in response to questions submitted by potential offerors:

1. I have received RFP-0180 for Gateway Community College for 2 Plasma Cutting Systems and 10 Multi Process Welders. There are many different types of both for different metal thicknesses. Do you have any other specifications or model Numbers and brands that is preferred?

KCTCS Response: the welding machines must be multi-process welding machines capable of SMAW, GMAW, GTAW, and FCAW welding processes. All accessories such as leads, remotes, pedals, electrode guns, wire feeders, etc. would also be included. The manual plasma cutting machines will need to be able to cut materials up to 3/8" thickness and also be supplied with consumables such as nozzles, electrodes, swirl rings, and thermal protective nozzles. Brands currently used by the college are Lincoln Electric, Miller Welding, and ESAB Welding.

The timeline to submit additional questions has passed. All other terms, conditions & specifications remained unchanged.

Offerors must acknowledge receipt of this and any addenda either with proposal or by separate letter prior to award of contract. If by separate letter, the following information should be placed in the lower left hand corner of the envelope:
